# Climate change and violent conflict

Author(s): Scheffran J, Brzoska M, Kominek J, Link PM, Schilling J

**Year:** 2012

**Journal:** Science. 336 (6083): 869-871

#### Abstract:

Current debates over the relation between climate change and conflict originate in a lack of data, as well as the complexity of pathways connecting the two phenomena.

## **Resource Description**

## Exposure: M

weather or climate related pathway by which climate change affects health

Ecosystem Changes, Extreme Weather Event, Food/Water Security, Food/Water Security, Human Conflict/Displacement, Sea Level Rise, Temperature

## Geographic Feature: M

resource focuses on specific type of geography

None or Unspecified

### Geographic Location: M

resource focuses on specific location

Global or Unspecified

#### Health Impact: M

specification of health effect or disease related to climate change exposure

Health Outcome Unspecified

## 

mitigation or adaptation strategy is a focus of resource

Adaptation

#### Resource Type: M

format or standard characteristic of resource

Policy/Opinion

## Climate Change and Human Health Literature Portal

### Resilience: M

capacity of an individual, community, or institution to dynamically and effectively respond or adapt to shifting climate impact circumstances while continuing to function

A focus of content

#### Timescale: **™**

time period studied

Time Scale Unspecified

## Vulnerability/Impact Assessment: **☑**

resource focus on process of identifying, quantifying, and prioritizing vulnerabilities in a system

A focus of content
